LET THE
YELLOW PAGES

TELL YOU
"WHERE TO BUY IT"

NORTH-WEST TELEPHONE COMPANY

LONG-DISTANCE TELEPHONE CALLS

There are two classes of long-distance telephone calls:

1. **Station-to-Station**—when you will talk with anyone who answers at the telephone called.
2. **Person-to-Person**—when you want to talk to a particular person at the telephone called.

PLACING LONG-DISTANCE CALLS

To place a long-distance call dial "O".

Then, if you wish a station-to-station call, give the long-distance operator who answers, the name of the city you want, the telephone number, if you have it, or the name and address under which it is listed.

If you wish a person-to-person call, give the long-distance operator the name of the city you want, the telephone number, if you have

it, or the name and address under which it is listed, and the name of the person you want.

COLLECT CALLS

Upon request of the calling party, the charges on a call will be collected at the called telephone, provided that such charges are accepted by the called telephone. Request to have the charges collected in this way should be made at the time the call is given to the long-distance operator. Simply say: "Please reverse the charge."

TIME OF DAY

The time of day when conversation actually starts, determined in accordance with the time system in use at the point where the call originates, decides whether day or night rates apply. This rule applies irrespective of whether the call is sent paid or collect.

LONG-DISTANCE TELEPHONE RATES

Night and Sunday rates apply from 6 p.m. to 4:30 a.m. and all day Sunday, except on certain overseas calls. All rates shown are for a three-minute initial period. For rates to other points, dial "O" and ask for "Long Distance Rate Clerk".

If circumstances prevent you from placing an emergency call by number, you may dial the operator and she will attempt to connect you.

SERVICE CALLS

- For local numbers not in this Directory..... Dial "O" and ask for "Information"
- To place long-distance calls..... Dial "O" and ask for "Long Distance"
- To report service difficulties or for assistance in making a call..... Dial "O" and tell Operator

INFORMATION ON PLACING CALLS

FROM AN AUTOMATIC (DIAL) TELEPHONE

To call, lift the receiver and listen for the "dial tone". When you hear it dial each figure of the number you are calling.

To dial place your finger in the dial opening over the figure wanted and turn the dial clockwise until your finger strikes the finger stop. Then remove your finger and allow the dial to turn back. Do not touch the dial while it is returning.

After you have dialed you will hear either the "ringing signal" or the "busy signal".

If you have repeated trouble dialing a number, then call the operator and she will assist you.

To call a party on your own line do not dial the listed number of the other party, but dial "119" and the last figure of your own number and the last figure of the number you are calling.

After you have dialed this code number, hang up your receiver. Your bell, as well as the bell of the telephone you are calling, will then ring. When your bell stops ringing it indicates that the called telephone has been answered. If no one answers, disconnect by lifting your receiver for a few seconds and then replacing it.

TOLL STATIONS

Toll stations are telephone subscribers located beyond recognized exchange boundaries and a toll charge applies on each call originating from the

station including calls to other telephones on the same line. To call such a subscriber, give the toll station number (or name, if a number has not as yet been assigned) to the operator. A toll charge also applies on calls to these stations.

TONES AND SIGNALS

Ringng Signal—A "burr-rr-ing" tone, repeated at regular intervals.

Busy Signal—A steady "buzz-buzz-buzz" tone.

Dial Tone—A continuous, steady hum, the signal to start dialing.

Voice Recording Signal—A short, high "beep" tone heard on the telephone line about every 15 seconds indicates that the person with whom you are talking is recording your conversation by means of his voice recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of your conversation, ask the person with whom you are talking to disconnect the recording unit. When he disconnects his recorder the signal is no longer heard. The "beep" is produced automatically by a device used to connect the recorder to the telephone line.

Use of a recorder without the signal is contrary to the provisions contained in the Company's tariff covering voice recorder connector equipment.

GENERAL INFORMATION

PUBLIC NOTICE

The Company's tariffs are open to public inspection and may be seen on application to any of its business offices.

BUSINESS TRANSACTIONS WITH THE COMPANY

All matters relating to new telephone service, moves, termination of service, directory listings, adjustment of accounts, payment of bills, etc., are handled at the Company's business offices. The addresses and telephone numbers of these offices are listed in telephone directories under the Company's name.

For moving telephones we request subscribers to give us at least ten days' notice. When sufficient notice is given we will endeavour to complete the order on a specified date. If no particular date is stated, the order will be completed as soon as possible.

BILLS FOR SERVICE

Bills are issued monthly and are due upon presentation. They cover local service charges one month in advance from the date of the bill and long distance charges for one month preceding the date of the bill. Payment of bills may be made by mail, in person at the business office or at any of the authorized payment agencies. There is no charge for payments made at our authorized agencies. Any information regarding bills may be obtained by calling the business office.

IDENTIFICATION OF EMPLOYEES

All employees of the Company authorized to enter buildings for any telephonic purpose are provided with a badge or identification card. Subscribers are earnestly requested to refuse admittance to their premises to anyone who cannot furnish this means of identification.

SERVICE SUGGESTIONS

After you place a call, be sure to allow what you consider a sufficient length of time to enable the called person to reach his telephone, before concluding there is no one there to answer.

Answering your telephone promptly will assure you better service and avoid abandoned calls or other attempts to reach you. Time is saved by identifying yourself, your Company or your Department immediately.

Speak slowly, clearly and directly into the telephone with your lips about one-half inch from the mouthpiece. Otherwise you will not be heard distinctly.

Be sure the receiver is properly restored at the close of a conversation. Otherwise your line may be "out-of-order" when someone is trying to call you.

CHANGES AND ERRORS IN DIRECTORIES

Every precaution is taken to avoid errors and omissions in the telephone directory, but if they occur, the Company's liability for them as provided in its tariffs is limited to an amount not exceeding the charges for the service affected until a new directory is published. In order that the directory records may contain correct listings at all times, notification of changes or errors should be given at once to the Business Office of the Company.

FOREIGN ATTACHMENTS

Someone is always selling some new gadget or gimmick to hang on the telephone, presumably to improve the service or make it handier. However, most of these devices actually interfere with your service and may put your phone completely out of order. Attachments or devices, except those authorized by the Telephone Company, are not permitted in connection with telephone facilities or directories. If your telephone equipment doesn't meet some particular need, the Telephone Company can furnish approved special equipment at reasonable rates.

**TAXIS****TAILORS****TIRES**

find them faster in the

YELLOW PAGES

of your telephone directory

When you're in a hurry—when you're in doubt—that's when the **YELLOW PAGES** of your telephone directory save you time and trouble. Everything is listed by heading in alphabetical order. Whether it's a product or a service—look first in the **YELLOW PAGES**.

**NORTH-WEST
TELEPHONE COMPANY**

*On Your Logging Show
or Construction Job*

Control your trucks, cats, etc.
by Radio leased from "North-west"

A radiotelephone system gives you complete, instant contact with all vehicles on your jobs. By leasing radiotelephones you eliminate capital outlay and maintenance costs. Your monthly payment leases you a complete radiotelephone system. All maintenance and servicing of equipment is handled by "North-west" at no extra cost to you.

For complete information on leasing radiotelephones, contact our Radio Sales Engineer. Call Toll Free — Zenith 7000.

**NORTH - WEST
TELEPHONE COMPANY**

*On Your Logging Show
or Construction Job*

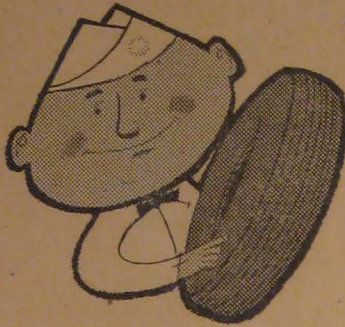

Control your trucks, cats, etc.
by Radio leased from "North-west"

A radiotelephone system gives you complete, instant contact with all vehicles on your jobs. By leasing radiotelephones you eliminate capital outlay and maintenance costs. Your monthly payment leases you a complete radiotelephone system. All maintenance and servicing of equipment is handled by "North-west" at no extra cost to you.

For complete information on leasing radiotelephones, contact our Radio Sales Engineer. Call Toll Free — Zenith 7000.
